MAUA BANK

191 & 193 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, one hundred thousand dollars currency, in which case forty-eight hours' previous notice required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

WEBSTER & PRINCE.

AMERICAN DENTISTS.

Drs. Webster and Prince, established for long time in

CALLE CAMARAS, 141,
Montevideo,

have the honor of announcing that they have recently opened their new establishment in this city, at

245—CALLE CANGALLO—245

They offer themselves for all classes of difficult operations in their profession, without any more recommendation than the credit they have obtained in the respectable society of Montevideo.

Fill teeth with Silver, Platina, 'Os Artificial,' and Hill's Stopping:
also with
PURE GOLD.

Dr. Webster having made a special study of this last beneficial metal, which conserves and keeps for many years a tooth which gets to be classified by many dentists as lost.

We extract teeth
WITHOUT PAIN,
by means of the simple proceeding of the nitrous oxide gas.

Complete sets of teeth, or partial ones, made on gold, silver, platinum, and vulcanite rubber plates.

The perfection of their artificial sets of teeth are guaranteed by the many persons of this city who have had the work done in Montevideo.

Drs. Webster and Prince consider it a duty to announce to the respectable public that they never have worked in this city before, as some persons have imagined; and beg that their new establishment may be visited, in which will be found all the latest improvements that the profession has obtained in North America.

(Between Piedad and Rivadavia.)

I have recently returned from New York, having travelled extensively in Europe and the United States, examining the latest and most improved methods for successfully operating in Surgical and Mechanical Dentistry, in addition to which I have engaged the services of two learned and skilful Dentists from New York, with whose able assistance, and my own experience of 30 years' practice, I now offer to the Public of Buenos Ayres.

Gold Fillings, a Speciality; also, Silver, Bone, and other Fillings made in the most secure and durable manner.

Partial Sets of Teeth, from one Tooth to a full Set, of the latest and best material, satisfactorily executed and made to fit.

My Patients are aware of my ability to extract teeth quickly, and with but little pain, but to timid persons, who desire an Anæsthetic, I keep on hand, and administer fresh daily, the Nitrous Oxide Protoxide of Nitrogen, or Laughing Gas, for the painless extraction of Teeth.

Dentrifice and Tinctures for Preserving and Cleaning the Teeth; also a fine assortment of Tooth-brushes. To be had at any time.

For the accommodation of Dentists, I have opened a Dental Depot, where all necessary materials can be procured. cj—75 1m f4

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 duertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent., amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days: 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

THE Blood telegraphs its condition upon the external flesh, Scrofulous eruptions salt-rheum, ulcers, boils, felons, white swellings, tumors, cancers, &c., are the telegraphed symbols by which the current of life indicates the fact that it is impregnated with corruptions and pleads for purification. Answer the plea with a course of Bristol' Sarsaparilla, the concentrated essence of the best vegetable depurative known to science. Soon the superficial indications will be changed, and sound flesh and a healthy, unblotched skin will supplant suppuration and inflammation. The salutary, chemical revolution produced in empoisoned blood by this harmless detergent is one of the most wonderful phenomena in the operation of medicine. cj—f13

BRITISH EMIGRATION.

REPORT OF COMMISSIONERS.

A quarter of a million emigrants leave Great Britain yearly, and have done so for more than twenty years, carrying with them the industry and habits of the mother country to the remote shores of Australia, or swelling the prosperous tide of the Great Republic of North America. The drain of nearly a thousand able-bodied emigrants daily seems to have no injurious effect upon the wealth, population or trade of the British Empire, and although it has depopulated some districts in Ireland it is pleasant to think that the emigrants have signally benefitted of the change. Until recently the Irish formed three-fourths of the emigration from G. Britain, but now we find they form little more than a quarter, the greatest change being observable if we compare 1864 with 1871 thus—

	1864	1871
English.....	56,618	102,452
Irish	115,428	71,067
Various.....	36,854	78,916
	208,900	252,435

In an interval of seven years the number of emigrants from England almost doubled, that from Ireland having fallen off nearly half. Still Ireland sends out 1½ per cent of her population each year, while England and Scotland only send ½ per cent.

Strange to say, the majority of English emigrants are now going to the U. States as the Irish used to do, and of 198,843 persons who sailed from England last year (1871) for the Great Republic only 65,591 were Irish, or barely a third. Her Majesty's Commissioners view with regret that Englishmen do not prefer the British Colonies, adding that "the U. States Emigration agents in England are very "energetic and contribute to direct a "larger proportion of British emigra"tion than would otherwise go there." Moreover Canada can *only* absorb thirty to forty thousand yearly.

Is it not wonderful, Mr President Sarmiento, to see the American Government not content with its 41 million citizens, nor with 400,000 immigrants yearly, but it still leaves no stone unturned to gain a few more settlers yearly from Britain?

Canada absorbed last year 32,671 settlers, but the Commissioners think that any over 30,000 have to go to the U. States to find employment. Here in Buenos Ayres we could absorb 100,000 settlers yearly: our annual sheep-increase (say ten millions) would alone form 10,000 new flocks for as many immigrant families.

The Commissioners mention that 96 per cent. of the emigration is now by steamers, and the mortality is very trifling, only 1 in two thousand, which is about 15 per mil per annum, or the same as the ordinary death-rate in England.

The prosperity of Irish settlers in the U. States continues unabated, since they sent home to their friends last year £702,488, of which nearly one half was in the form of prepaid passages.

Emigration to Australia and New-Zealand has fallen off, numbering last year only 12,227, the lowest figure since 1847. This includes 2,406 sent out by the agent of the Melbourne Government, 1,097 by the Queensland agent, and 1,306 by that of New Zealand. This shews that unassisted emigrants only numbered 7,418 persons (against 40,000 emigrants that arrived during the same year in the R. Plate.)

The Commissioners by sending out female domestic servants to Australia contribute notably to reduce the disproportion among the sexes, which shewed a few years ago almost twice as many males as females.

The population of New South Wales in 1861 was 350,860, with 100 males to 76 females; and in 1871 it was 503,981, with 100 males to 83 females. The mortality rate is very low, say 12 per mil in the country and 19 in Sydney. The revenue of the colony in 1870 was £2,743,414, or nearly the same as that of the Argentine Republic, with only one-fourth of our population. The extent of land sold during the year was 329,318 acres, say 500 square leagues.

Queensland received in 7 years up to May 1871 altogether 36,752 emigrants, of whom 4,500 Germans, the rest English. The population now numbers 120,076 persons, being 100 males to 67 females. Only 2¼ million acres are settled on, and 51¼ millions are still available for settlers, an area larger than Great Britain.

Victoria, better known as Melbourne, is ahead of all other Australian colonies. Population 729,654, the ratio being 100 males to 86 females, whereas in 1861 the females were only as 64. The Commissioners sent out no fewer than 29,851 housemaids in a few years to Melbourne. There are 17,770 Chinese, of whom only 43 are females. The land-sales in 1870 realized £463,820, averaging 25 shillings an acre, which is equivalent to £8,000 per sq. league.

The territory of Victoria comprises:

Under sheep-runs.....	28 milli ns.
" tillage.....	9¼ "
" unappropriated..	48 "
	85¼ millions.

More than three-fourths of the allotted lands are rented, the total area sold being only eight millions acres, of which one-eighth is under wheat.

South Australia makes great progress, the land sales in 1871 reaching £365,041, at 30s per acre.

Western Australia showed similar activity; ten million acres for pasture were leased out during the year.

New Zealand has just voted £200,000 for encouragement of emigration, which is five times what the Argentine Congress has voted, although the population of New Zealand is only one-eighth of ours and the revenue one-half. The Government is introducing Swedish families, who are found to be excellent colonists: 6,000 Swedes are to be imported for railway navvies. A proposal was made to prevent Chinese immigrants by heavy taxes, but it was thrown out as unjust.

During the last ten years Canada has drawn 215,000 emigrants from England, and the Government gives a bonus of £6 per head to help emigrants, besides offering 1$ 25 cents per day for railway navvies. This is much less than they could earn in B. Ayres, where we have seen them get as much as $2 a day with beef and wine.

In Australia wages appear on a level with B. Ayres, married couples getting £80, and housemaids £40 a year, with board and lodging. Shepherds £35 to £50 a year with rations.

The Commissioners say nothing about the River Plate, and yet we make bold to say it is the finest country of all for British settlers. Granted the insecurity of life and property—granted the sudden variations of temperature—granted the dust-storms, ants, locusts, &c—still we point to the case of Patrick Prendergast, the sheep-farmer, who went home last month with his family in the Lusitania, with £5,000, and who had landed here in 1860 without a shilling.

Her Majesty's Commissioners can show us nothing like that.

The Poitou's Mails.

TERRIBLE STORMS IN U. STATES.

Yesterday the Bonnemason steamer Poitou entered port, crowded from stem to stern with immigrants: her dates from Gibraltar are not much fresher than those brought by the Sorata from Lisbon, but her papers are filled with the account of the unprecedented storm in the United States.

The latest telegrams are—

New York, 13th Jan.

On Sunday, a fearful storm broke over this city, causing great damage and breaking all the telegraph wires. The snow fell so thick and fast that navigation was stopped.

Berlin, 14th Jan.

The *Gaceta Alemania del Norte*, in view of the declaration of Russia, which states that, in consequence of the revelations made by the Duke de Gramont, Germany should demand from Austria a new guarantee for peace, says that "Germany has no such necessity, and that the best and only guarantee of peace is that the monarch who rules Austria and Hungary is well aware that a peace policy is the true interest of that empire."

M. Thiers has directed General McMahon to address a letter of condolence to the ex-Empress Eugenie.

The following account of the storms in the States we take from the latest papers:—

"The recent cold spell and its attendant snow-storm have been felt with terrific force all through the East, especially "way down in Maine". At Eastport the thermometer was 20 deg below zero, while several schooners belonging in the provinces are ashore in that vicinity.

"At Portland the cold was also very severe, the glass falling to 20 deg. below zero, while back in the country some few miles it went down even as low as 40.

"At Belfast the inhabitants declare that the weather is colder than the memorable cold term in January, 1857, the glass registering 20 below 0 yesterday, while all the railroad tracks are so blocked up with snow that no trains have arrived since Monday.

"Bangor is no better off, the thermometer having fell as low as 30 below zero, while under effect of southerly wind yesterday it rose some twenty degrees.

"At Waterville it showed 40 below, while at Skowhegan and at Fairheld it touched 43.

"At Wiscasset it was a trifle warmer, the lowest point reached being 12 deg. below zero on Tuesday night, since which time the mercury has bobbed up and down some six or seven degrees. The harbor is, however, entirely unobstructed by ice, and the Booth Bay steamer is running as usual.

"At Waldoboro the cold was very intense, while at Lewiston the oldest inhabitant declared he never knew the like, the glass showing 38 below zero.

"At Brunswick and vicinity the cold was so intense that in many places the telegraph wires contracted so as to snap, and much difficulty is experienced in consequence.

"At Providence, R. I., not only was the cold intense, but the snow-storm was very heavy. It began to snow before daylight and continued without abatement until late last night.

"At Boston a terrific snow storm prevailed all day. Two feet or more have fallen. All railroad trains to or from the city were blocked, and crowds were waiting at the depots for conveyance to their residences. The wind was from the north, and the thermometer ranged ten degrees above zero. At Little Cottonwood, near Central City, a terrible snow-slide occurred to-day from six to eight feet of snow having fallen in the last two days. At about half-past two o'clock this afternoon an avalanche 680 feet wide and 12 feet deep came down, crossing the stage road, carrying away from eight to ten teams and teamsters, and taking them 1,500 feet across Cottonwood Creek. Three of the teamsters have been shovelled out alive, but badly bruised. Four more known to be buried were not rescued, and it is thought impossible to find them before spring, although from 100 to 200 men are at work shovelling. All the teams in the line of the avalanche were swept away. The names of the men have not yet been ascertained. Eight mules were dug out, some dead; some with legs broken, and others severely bruised. Several were afterwards shot."

ROSARIO.

(Our Own Correspondent.)

Feb. 11th.

The crying evil in this country is that it is a Republic without Republicans. I am not emitting a bran-new sentiment: the same thing was said in the days of Appius Claudius, and the same thing may be said in speaking of all the Republics that ever existed, with the sole exception of the United States; and there they were fortunate, like Jacob Faithful, to have been able to learn the 'rudimens.'

It is really laughable—that is, for those who can laugh at human infirmities—to see our theoretical republican efforts sprout, flourish for an hour, and then, cut down by the 'facon' of pig-headed ignorance, or dug up by the spade of prejudice and inveterate custom.

To hear the nation talk, one would think that the country was full of incipient Franklins, Penns, Washingtons, and Lincolns; when, in sober reality, they are all Pecksniffs in disguise, that is, those who are not disciples of the Systems of Rosas, Urquiza, and the 'Chacho.'

There is the Province of San Juan. The people of that pleasant place are especially addicted to 'gobernorcidio'—if you will allow me to coin a Spanish word. The San Juaninos are reproaching Colonel Gomez for having played Hamlet without the principal character, or, in other words, for having got up a revolution and failed to favor the audience with the customary slaughter of a Governor. I wonder how Sarmiento escaped. If I am rightly informed, the knife was being in the course of sharpening when the cunning old man got himself appointed Ambassador to foreign parts and gave the S. Juan Thugs the slip.

This is republicanism in San Juan.

Now, in Santiago it is the reverse. There the people are governed by a sort of Roman Marius, very pleasant to get along with as long as you don't thwart his wishes, but ready to play the very devil with you if a desire be expressed for a change of Consuls. Republicanism in Santiago is only allowed to exist in the family of the Taboadas. To hear the General and D. Gaspar, and the defunct Don Manuel, and the living Ibarra, you would fancy the Genius of the Republic taking them by the hand, and like the Mother of the Gracchi, exclaiming, 'these are my jewels.' But devil a bit of republicanism they allow to others; so it is evident the commodity is scarce up in that region.

In San Luis the love of republican institutions goes to the length of obliging the Governor to elect his Minister or Senator to Congress, contrary to the wish of the province. This is done by the extremely simple means of placing loaded muskets in the hands of those civic and civil functionaries yclept police, with instructions to shoot any citizen who desires to vote against the Government list.

The same Argentine democratic principles obtained in Santa Fé, with the happy republican result of exalting to the curule chair of government and Congress Messrs. Cabal, Iriondo, Salva, and ultimately of Iriondo's brother-in-law, the Cura Zaballa.

The quarrel between the Municipality and the government is a notable instance of theoretical republicanismo continually and systematically knocked on the head. The constitution creates a fourth independent power in the province, the Municipality; which reigns supreme over a certain municipal area. The new Municipality was desirous of putting a stop to the polluted establishments that weekly and nightly hang out their beastly flags enticing boys and girls to what are called masked balls, but which are in reality schools for every kind of vice. But because the government makes a pretty penny in selling permits to the keepers of these dens, it very coolly denies that the Municipality has any right to interfere—that balls, theatres, etc., are quite out of the jurisdiction of municipalities, and belong exclusively to the police, as long as any thing is to be made by them.

Here is not only a direct blow given to the legal jurisdiction of a constitutional power, but the Executive patronises and supports by brute force the sinks of iniquity that are demoralising all grades of our society.

Republican theories are thus being continually knocked on the head by those who preach them.

The Clerk of the Weather has *shoicered* his favors with undeniable impartiality this season. England, Germany, Italy and the United States have all had it wet and heavy, and the Argentine Republic has not escaped; Mendoza was nearly being washed away, and the good 'frailes' of Cordoba have secured a supply of water for washing that will last them a twelvemonth. Here the 'demnition moist' guest came down just in the nick of time to destroy a large quantity of wheat lying out in the fields. It makes my hair stand on end when I think of the bad language that must have escaped from my friends Perkins and Casado on seeing their colonists' badly-made stacks of wheat undergoing an eight days' drenching. Well, it is hard, not only on those gentlemen, but on the poor colonists, who have had two rainy harvests in succession. However, what is sauce for the goose is not always sauce for the gander. The rain has given an immense impulse to the maize crops, and johnny-cakes will be selling in the streets for a penny before long, and pigs will have a (y)ear of plenty.

From what I can learn the great rains have done a deal of damage in Tucuman and Jujuy, and many miles of telegraph posts are washed away.

In the province of Cordoba it appears that the Bank which is to be established with the proceeds of the loan, will take the character of a private bank, shares being offered to the public, and the Government coming in as a simple shareholder. I believe that this determination has been strengthened by the difficulties that congress might throw in the way of a State bank in the provinces now that a National Bank is founded.

There is very little said in the press of a circumstance highly honourable to the country, I allude to the organization of a Committee of gentlemen in Rosario for the purpose of ransoming from the Indians a part, at least, of the many captives they hold in a species of slavery.

On a par with declamatory theories of liberty in this country is the systematic abuse in practice; and in the same way on a par with the thundering denunciations of the horrors of captivity amongst the Indians is the apathy with which the subject is viewed. The Governments, National and Provincial, and the public in general, have evinced the most superb indifference at a state of things that ought to bring a blush on every Argentine face. Buenos Ayres, so prompt in raising subscriptions for every conceivable object, charitable or otherwise, has never made an effort to save the thousands of christian souls suffering involuntary servitude amongst the savages or becoming savages themselves; and that not in some far off Barbary or Tangiers, but at our doors, on Argentine soil.

The Committee formed in Rosario is, I believe, the first of the kind organized in the country. At its head is Mr. Barra, who has given a lesson of big-hearted benevolence to the country. Through the efforts of Mr. Barra and Mr. Caminos, a large amount of money has been collected, and the latter gentleman is continually on the move between Buenos Ayres and Rosario and the frontier, and in every trip succeeds in rescuing some unfortunates. He is now on his way from Azul accompanied by thirteen captives that have been bought or procured in other ways from their Indian captives. It is the pride of Rosario that this city was the first, and up to the present time, the only one to institute such a noble propaganda.

On looking over the morning papers I only notice the accounts of three assassinations. I should not say *accounts*, for very, very few accounts are ever given. Murder and violence are so common that the press invariably speak of them just as if it were an item of news, the arrival of a vessel, &c. Here for instance is a specimen from a to-day's morning paper.

"The vice-Governor of Corrientes has been basely assassinated by four ruffians."

"Yesterday the body of a murdered man was brought in from the chacras del Rosario."

"A short distance from town a young married woman, aided by her lover, murdered her husband; they have both escaped."

"On Sunday night, at one of the masked balls, a man was badly wounded in a fight."

"A captain of one of the coasting vessels was robbed the other night of all his money and clothes, and of his wife!"

Not bad for one day's news, eh!

A mad dog was killed yesterday in the streets of Rosario; not however before he had bitten several other dogs. A son of Mr. Perkins had a narrow escape. The dog flew at the boy, but did not succeed in biting him when he was beaten off. A peon whom he attacked also succeeded in throwing him off without being bitten.

Yours truly,

LEO.

EDITOR'S TABLE.

The French steamer Poitou entered port yesterday morning. She brings a splendid batch of 694 immigrants and some fresh news which will be found in another column. Amongst her intelligence are details of the late awful hurricane in the United States, one of the most terrible description, stopping all business in the cities, and which has caused enormous damage. We publish all the particulars to hand.

The Irish community of B. Ayres will learn with deep regret from a letter in another column, that their highly esteemed pastor, the Rev. J B Leahy, is about to retire from his ministry in this city in consequence of ill health. Since the death of Father Fahy the duties of the Chaplaincy have become much more severe and, none can forget how, during the terrible period when Plague devastated this city, the excellent clergyman who now bids us (we hope only a temporary) farewell devoted himself night and day, with heroic zeal, to the relief and spiritual comfort of all requiring his sacred offices, irrespective of nationality. In common with all his flock, we hope for his speedy and complete restoration to health.

We have received the most encouraging accounts of the progress of the works on the Cordoba and Tucuman Railway. They are being pushed on at several different points with a rapidity hitherto unknown in railway contracts in this country. The section in Santiago del Estero has already been commenced, and we understand that the Governor, who is heart and soul with the enterprise, has promised the empresarios a large number of hands to drive on the works.

There was a change in the Moon yesterday, and the weather was most unpleasantly sultry. Some people think that the Man in the Moon has no influence mundane affairs, but this is an an error. If the next change bring a jolly deluge of rain, as is most likely, we opine it will have a considerable influence on Carnival and all its tomfooleries. There must be a Woman in the Moon behind the Man, otherwise it is impossible to account for the changeable disposition of the planet.

The mails for the Senegal were despatched from here last night in charge of a French naval officer. The steamer leaves the Mount to-day.

Poor Almagro is going to the dogs. Another and another tannery or similarly disagreeable establishment, to be erected in that shabby genteel neighbourhood, is announced almost every day. The place might be made a pretty suburban retreat; but trade has seized on it, and its doom as a habitable place is sealed. It must now be left to 'lecheros,' ball players, and those skilled in grease and hides.

That indispensable island Martin Garcia has really had a narrow escape of being blasted off the face of the earth. The quarrymen have hitherto been taking the stone from any and every quarter of the place they pleased; but the Government engineers have now marked out a spot from which alone stone can be taken. There is plenty to last a long time if scientifically worked, but not in the fashion the island has hitherto been taken to pieces.

The magnificent field for traffic at the command of the Argentino Tramway Company was proved last Sunday, when the Flores branch alone carried the unprecedented number of 14,000 passengers. There is, however, an impression abroad, growing daily stronger, that this line might be much better managed than it is. Independent of irregular time, getting off the rails, overcrowding the cars (the latter the most dangerous and annoying of all travelling abuses), the indifference displayed by the managers to the 'feed' to be obtained from the Lacrosse and Mendez lines is absurd and very invenient to the public. Hundreds of people go out every day 'en route' to Flores by both the lines referred to, but always have to wait at the Rivadavia station for twenty minutes or half an hour, the managers of the Flores line seemingly making it a point *not* to wait for or accommodate passengers who may find it convenient to travel to the Once by any cars but their own. If M. Thiers were the manager he could not indulge in a more absurd Protectionist vagary, the suicidal effect of which any average two year old baby could see at a glance. Instead of considering the Lacrosse and Mendez lines as rivals for the traffic to the Once, the Argentino should look on them only as 'feeders' to the line to Flores, of which it has a monopoly, and have special cars ready to pick up every stray man, woman or child that drops from the Lacrosse cars, and even looks as if going towards Flores. Since D. Mariano Billinghurst gave up the chief management of this line, a kind of "take your time Miss Lucy," "don't hurry yourself" spirit has crept into it, not at all conducive to ultimate success or big dividends for the shareholders.

The girls are all asking why the decoration of the streets for Carnival is not commenced at once. We really can not say, ladies. Some hint that the Commission or Commissioners are afraid of the rain, others that they 're afraid of the 'tin' running short, and others that the whole business is too long for them. However make your dear little minds easy. There is certain to be some kind of a 'kick up-the-dust'; and if there is nothing but cold water and a ball at each of the Clubs (wives and weather permitting) these pleasures will always be something to take the edge off the sackcloth and ashes business to which the following six weeks must be devoted.

Advices from Valparaiso report commercial people there in extremely good spirits at the prospect of shortly having ten steamers monthly from Europe to that port.

The recent suppression of the Consular Post-offices is safe to lead to a row and reform. The commercial community has been touched in its only sensitive limb; and for the last three days a wail at the enormous prospective postage on letters to England after the 1st of July next has issued from the bottom of the mercantile heart, or breeches' pocket—the same identical thing. It is really enough to raise the ghost of Rowland Hill and of Rowland Hill's father to boot, to find that 2s. 10d. is the cost of writing and getting an answer between England and B Ayres in the year of Grace 1873; while a 6d. ocean postage to all parts of the globe is the cry of postal reformers at home. Something must, and we have no doubt will be done at once. Next year we shall probably find a stiff sum in the estimates to carry out Postal Treaties concluded with Great Britain and France.

While the yellow fever lasts at Rio, people here might give their friends at home who intend coming out a friendly 'tip' to take passage in the Pacific liners to Sandy Point and then return to the Plate in the homeward steamer. The expense will be a trifle extra, but what's that, to avoid the Black Hole of Calcutta business facetiously called quarantine in the Plate? Indeed, the process is not exhilarating any place; but quarantine about here, judging from the accounts of those forced to undergo it, is nothing better than a slight foretaste of 'another and a worse world,' not to be found on any known map, but which, with all the 'good intentions' in the world, it is impossible to form any favorable abstract opinion of.

"Touching and irresistible was that invitation of the rustic maiden to her swain—'Come over and see me; we have a new lamp at our house, that we can turn down, down, down until there isn't scarcely a bit of light in the room.'"

"A carter in Port-Glasgow had occasion frequently to dun a gentleman for a small account that he owed him. The gentleman, annoyed at his importunity, ordered him to go to——. The carter replied, 'Weel, sir, if I'm to gang there for't, will ye gie me the name o' your augent?'"

A most amusing row has been going on for some days between the Port Captain and a devil-may-care Ship Captain named Jack Garibaldi. It appears that Captain Garibaldi has 120 passengers on board, that he thinks quarantine all nonsense, that he won't stand it, and threatens to let his passengers starve if they are not taken into the Lazzaretto. The passengers on their side are furious with the bully captain who led them to believe he had a clean bill of health, though he took a yellow fever patient from Flores Island to the Lazzaretto only last week. He tried to browbeat the Montevidean authorities in a similar way. Captain Garibaldi seems rather a pleasant sort of man to sail with, or meet on business.

The latest official report of the health of the city is super-excellent. Half the doctors in town are starving, and the other half only able to keep body and soul together. We are very sorry indeed for the 'medicos,' but we cannot cry; still as a polite form of condolence, there can be no serious objection to wishing them better times. Just now there is nobody to kill or cure, the only complaints going being slight bronchitis, and a little gastric fever.

The 'Juri' affair between Dn. E. Paz and Mr. Fazzio, the absconding notary, ended in a complete victory for the editor of the *Pampa*. Three more judges 'received warning' from Mr. P. in his defence speech; and there is evidently lots more fat ready for the fire. A startling forgery, 16 times repeated, has turned up in connection with the Montevede probate. By George! it won't surprise us if even the 70,000 ounces turn out to be forged when we get at them. Nothing can surprise us now-a-days.

Leo sends us a very interesting letter from Rosario. The life of the new Municipality is not quite as smooth as a lake, but it is making a good beginning. Mad dogs seem to be plenty and money and republicans scarce.

The very latest establishment at unfortunate Almagro is an ink factory. The next infliction will be a newspaper.

A new paper with the ominous name of *The Patriot* is about to be started at Fray Bentos. Its programme is slightly Quixotic, being simply to oppose at any price, and on every occasion, good, bad or indifferent, the present Government of Entre Rios.

Take a note of the following ladies: "Madame Girardin of witty memory said, it is allowable to dream with a blue bonnet, but it is impossible to be sad with a rose-colored one."

Q. Has not the coast of Barbary been infested with pirates?

A. Yes; but they have all gone to America and turned publishers.

Q. What did men and women wear before hats were invented?

A. Heads.

A grand Bois de Boulogne. Hyde Park, Phœnix Park and Belgrave Square all knocked into one is spoken of as about to be laid out on the Arroyo Medrano near Belgrano. Of course. We know what the Park will be—lakes, grottoes, mazes, games, restaurants "cabinets particuliers", &c. We have seen this sort of project go to the wall before birth here half a dozen times, and the present is pretty certain to follow in that direction. We want a People's Park, and not a gimcrack tea garden to attract the 'fast' life of the city to beer swilling and still more doubtful recreations.

The fortune of Mr. Leguina, the well and favourably known 'repartidor' of more than half the journals in town is put down by a colleague at 25 millions of paper dollars. Distributing a newspaper seems to be a very much more profitable business than writing or editing one. All the editors in town put together could n't scrape up the above sum, even if they were to be hanged instanter in case of not doing so.

The Wax Works are taking very well at the Mount. They opened on Saturday. The bull-fight on Sunday was a wretchedly tame business. All the bulls rank cowards. One brute stood like a lamb while a 'matador' or some other 'or' finished him with seven prods.

A famous "drunk and disorderly" was placed in "quod" yesterday. During the year 1872 no man could take his oath that he ever saw this old offender even moderately sober, and he was in prison on the same charge as now 25 times during the twelve months; in fact he no sooner got out for one bout than he got in for another, and he is beginning 1873 in a most promising manner.

The Cordoba papers to hand report another inundation and rise in the river there on Saturday last. The waters rose higher than on any previous

occasion, and the Sarmiento Bridge was damaged, it is feared to a considerable extent. No lives lost; a cart of hay carried away is the only accident reported.

The *Capital* of Rosario announces the arrival in that city of Mr Fazzio "who has opened a heroic campaign against Exquiel N Paz, to-day the terror of B. Ayres." Good this.

Messrs Lloyd and Harilaos are at present in Rosario on business connected with the railway from that town to San Lorenzo.

Report to the shareholders at the tenth annual general meeting, held at London, on Monday, the 16th December, 1872.

In presenting the Tenth Yearly Statement of Accounts, the Directors congratulate the Shareholders upon the good results attained, and have the pleasure to recommend a Dividend of 6 per cent. for the half year ended 30th September last, making, with the Interim Dividend paid in June a distribution of 11 per cent. for the year. The sum of £10,000 has been added to the Reserve Fund, thereby raising it to £165,000, and leaving a Balance of £8,877 12s. to be carried forward to the Profit and Loss Account of the current year.

The large increase of immigration, the rise in the value of all property, the rapid extension of Railway and Telegraphic communication, the important Public Works now decided upon, and the greatly increased value of the Exports, all testify to the material progress of the River Plate Provinces.

The Board took advantage of the visit of the Chairman to the River Plate to request him to make a personal inspection of the various Branches, and are pleased in being able to state that his report confirms their views of the soundness of the Bank's business.

The Directors recognize with pleasure the valuable services of the Managers and Staff of the respective Establishments.

The Directors retiring from Office in rotation on this occasion are Messrs. John Hackblock, George Alexander Hancock Holt, and Henry Archer Wyatt Smith, who, being eligible, offer themselves for re-election.

Divident Warrants, free of Income Tax, will be issued, payable on the 23rd December, 1872.

At a Meeting of the Shareholders, held on the 16th December 1872,

The Seal of the Company having been affixed to the "Register of Transfers," and the "Register of Shareholders."

The Report and Statement of Accounts, a copy of which had been sent by post to the registered address of each Shareholder were taken as read.

The following Resolutions were carried unanimously, viz:—

Resolved—That the Report and Accounts be received, adopted, and entered on the Minutes.

That a Dividend at the rate of 6 per cent. for the halfyear ended 30th September, 1872, be declared out of the Profits accrued to the 30th September, 1872, payable on the 23rd December, 1872, free of Income Tax.

The following Directors having retired by rotation, were unanimously re-elected:—
John Hackblock, Esq.
George A. H. Holt, Esq.
H. A. Wyatt Smith, Esq.

That the best thanks of the Meeting be given to the Consulting Director, Managers, and Staff of the respective establishments, for the zeal and ability with which they have conducted the affairs of the Bank.

Resolved—That W. W. *Deloitte*, Esq., and *John Vanner*, Esq., be elected Auditors for the ensuing year, and that £150 be paid for their services.

That the best thanks be given to the Chairman and Directors for their very able and successful management of the affairs of the Company.

THE REV. J. B. LEAHY.

48 Reconquista, Feb. 12, 1873.
To the Editors of the STANDARD.
Gentlemen,
Please insert the following correspondence, and oblige
Yours very sincerely,
J. B. LEAHY.

[*Translation.*]

"Buenos Aires, Feb. 10, 1873.
"To His Lordship Dr. Aneiros, &c.
"Most Illustrious Sir,

"About a month since, while speaking with your Lordship, I told you that the state of my health required me to seek a more tranquil life than that I was passing in Buenos Ayres, and that I intended to go live with my brother in Carmen de Areco, leaving Rev. W. M. Walsh in my place. To all this your lordship did me the favor to express yourself conformable. As has happened to me more than once before, I find that others seem to know more of my affairs than I do myself, and insinuate that reasons more urgent than the state of my health, or free election, cause me to make the change. As such insinuations are disagreeable and unfounded, I beg to ask, formally, the favor you have already granted me by word; that is to say, leave to separate myself from this chaplaincy and give it in charge to the Irish priest most competent to discharge that duty, the Rev. Wm. M. Walsh.

"I salute your Lordship with all my respect, and wish you many years of happiness.

"Yours attentively,
"J. B. LEAHY,
"Irish Chaplain."

"Buenos Ayres, Feb. 11th, 1873.
"Granted—it being well understood that this resolution has no other origin than the wish of the applicant, &c. &c.
"† FREDERICK ANEIROS."

DIEZ MILLONES DEL BANCO PARA EL BANCO.

Sres. Editores del STANDARD.

Suplico á Vdés. se sirvan preguntar al Sr. Don J. I. C. que quiere decir en su articulo "Diez millones del Banco para el Banco;" porque muchos amigos que entienden bien el Ingles, el Aleman, el Frances, y yo, que soy Español, nos hemos quedado en ayunas.

"By the bye," nos causaria una sorpresa que hubiera alguien que atribuyera al Sr. Don Velez Sarsfield el articulo ese, como le atribuyeron otros de la misma manufactura que dice J. I C. publicò en el *Nacional*—debiò tener un estilo muy distincto "in illo tempore,"

Regalarémos con gusto $100 mpc. que garantizamos en su oficina, a quien se anime à descifrar el "logogrifo" firmado en su periodico de hoy J.I.C.

Aqui vendrá bien el conocido proverbio—
"Me entendeis, Fabio?
"Si, que te entiendo.
"Mientes, Fabio, porqué yo mismo no me entiendo!

Si Vd. no quiere insertar estos renglones en Español, sirvase devolvermelos para remitirselo en Ingles.

Feb. 12th 1873.

Ounces....	400
Sovereigns....	122¼
Patacons....	25
National Bonds....	81¾

National Bonds during business hours ruled firm and improved ¼, but in the liquidation they were a shade flatter.

The sales were—

For Feb.	28th	10,000 at 81¾.
Do	do	10,000 at 81¾.
Do	do	10,000 at 81¾.
Do	do	10,000 at 81¾.
Do	do	5,000 at 81¾.
Do	do	10,000 at 81¾.
Do	22nd	10,000 at 81¾.

Cedulas ruled firmer than bonds; the following were the sales—

For Feb. 28,	Series	A	10,000 at 98¼.
Do	Cash	Do A	10,000 at 98¼.
Do	do	do A	10,000 at 98¼.
Do	do	do A	5,000 at 98¼.

In the liquidation there was business done both in Bonds and cedulas—

20,000 Bonds for end of March 82¼.

10,000 Cedulas at 98¼; buyers offering ⅜, and for a large lot, say 50,000, one seller at 98½. The Cedula market rules very firm.

Exchange ruled to-day much firmer than yesterday. One of our private banks that rarely enters the exchange market drew to-day at 49¼. The drop in exchange yesterday was not so much as represented, and none of the banks it seems have drawn at 49 or 49½. Yesterday, however, exchange was much scarcer than to-day, and first-class mercantile paper was passed to-day at 49¼. As some large produce transactions were effected this morning, some £30,000 to £40,000, the bills had to be passed. A large transaction in francs on Antwerp was passed to-day at 5.27.

The telegram from Montevideo to-day announcing a suspected case of yellow fever in Calle Cerrito, caused a stir in the market; every one disliked the intelligence, for although not a declared case, still the suspicion caused alarm.

Some large transactions in saladero produce were spoken of to-day—

600 pipes tallow from Silges and Ferrando, at 15½ on shore.

Also 18,000 salted hides from Pedro Luro's saladero, at 57½r free of lighterage.

At 3 o'clock some rockets at the rear of the Bolsa were discharged, and at once there was a rush from the ring, every one expecting news of the steamer, but nothing transpired,

The Hamburg steamer Bahia entered Montevideo to-day. She brings the Brazilian cargo on board.

The Montevidean telegram gave—
Home Debt, 67¾, and for end of March 68¾.
Consols, 84.
Pacific Loan, par.
Territorial, 40.
Exchange, 51½-51⅝
Rumored case of yellow fever in Calle Cerrito.
Bahia, from Hamburg.
Tallow contract, 19¼.
15 000 ar wool at 33½.
A lot of E. Riano hides at 89'.

Mr. Roth, barraquer, of San Nicolas, was welcomed on 'Change to-day.

There was great complaint to-day on 'Change about the again blocked up state of the Boca. Merchants ask what on earth the parties in charge of the dredge are about. Mr. Casares states that with but 3 hours working the mouth of the Riachuelo might be well cleaned so as to admit of the lighters getting out; the matter is a serious one.

Mr. Bullrich held a land auction at Standard Court to-day: a square league of land in the partido of Bragado, prime land and in a good neighbourhood. The attendance of bidders was good; the land was knocked down for 340,000$, Mr. Emilio Aguirre purchaser.

The Astarte has about one-half her cargo engaged, and will sail about Saturday.

It was rumoured on 'Change that the foundry yard of Sr. Carrullo, in Paseo Julio, was sold to-day for 100,000 pats. This place was bought five months ago for 94,000 pats. At a later hour we heard that the sale was not finished, as the owner asks more.

Money may now be quoted at 8: it was offered freely at this rate, but not much taken up.

Mr. Bagley's manifesto advertisement was profusely distributed on 'Change and puzzled the brokers for some time. It is in the advertisement line the greatest notice out.

In the list of amortized Buschenthal Bonds published the other day some wrong numbers appeared. The following are the corrections which we have from the Public Credit Office—

1501	should be	1051
1847	" "	1147
1125	" "	2125
2285	" "	2385

The Poitou entered this morning with a splendid cargo for the Plate, 694 Emigrants; as she did not touch at Rio we suppose there will be no quarantine, which is a very important matter, as it seems that all the floating lazaretts at Ensenada are crowded. In fact the Government must stir itself about this lazzaretto business, as the flow of emigrants to the River Plate is now too great for the hum drum quarantine arrangements so long in vogue. Three more Mediterranean emigrant steamers are expected in this week, if any of these vessels have unfortunately touched at Rio, it will be a difficult point to settle the quarantine on the passengers, as now quarantine is extended to 16 days, a period far too long for the steamers to remain in port. The news per Poitou will be found in another column, it seems that there is still a very heavy war cloud over Europe, which has been intensified by the Duke de Gramont's revelations; the reply of the German press to the Russian declaration is however very sensible, and shows how thoroughly Germany considers herself master of the situation. The news from the States is all about the great snow storm, the worst ever experienced in the Union, it began on Christmas eve and lasted till 13 January, stopping all trade business and even navigation, the winter both in Europe and the States seems unusually severe.

The mails from Rio Grande to-day bring news of a terrific storm there; the heat in January was so insupportable that nearly all the merchants left the city for the country parts, there is no fever whatever in Rio Grande and the health of that place is excellent. The great rain storm began on the 2nd Feb. and it rained as never before in Rio Grande.

The French brigantine Jeune Edouard ran on the Rio Grande bar and proves a total loss, she had a general cargo; the crew were saved but the ship and cargo lost.

Mr. Luis von Loesl, a respected merchant of Rio Grande for many years, has arrived at Montevideo per Charrua; he goes on a pleasure trip to Europe.

The remarks we published in our last issue on the subject of excessive postage have attracted much notice and in the proper quarter, the matter was much spoken of on 'Change to-day, and the opinion is that if the foreign merchants here take it in hand in the right way a proper postal treaty may be arrived at: perhaps the first best step would be a petition by the mercantile body of the River Plate to the English post master general; both the English and Argentine postal charges are excessive, the Argentine stamp on letters merely going through its Post-office should be not over one cent, whilst the English postage should not be more than 5½ per ½ ounce so as that 6 pence postage would cover all postage on a letter either coming from or going to Europe, and we must come to that point yet.

Last week the new tramway works in the town of Salto, B.O., were publicly inaugurated. The whole town with the authorities at the head attended. Salto is showing great signs of progress, and in fact all the Uruguay towns are going a-head fast.

Three sailing vessels have just entered with over 150 emigrants. The emigrants are for the most part Spanish, and have no quarantine.

The Charrua brought down from Rio Grande 16.090 pats., which were landed at Montevideo.

The Italian barque Eurica, just entered, has brought 34 emigrants. The Excelsior touched at Montevideo and goes up to Rosario with a cargo of railway iron. The American barque A C Bean with a splendid cargo of Cape Cottage pine, entered Montevideo on Tuesday, but comes up here: pine is pine at present. The Dutch brig Anne Maria with sugar, from Pernambuco, entered Montevideo yesterday, and was at once put in quarantine.

Mr. Hardy, the well known shipbuilder of Salto, B. O., was welcomed on 'Change to-day. Mr. H. reports Salto much improving. The railway works are progressing rapidly, and now Mr. Human is commencing to lay the rails; about a mile of rails already laid; Mr. Nichols of B. A. has the contract.

The river Uruguay is falling. There are three Brazilian gunboats lying off Salto waiting to pass up to Uruguayana.

The steamer Leopoldo, which lay so long a ground in the river is now on the stocks in Salto at Mr Hardy's yard undergoing the most thorough repairs. She will not be ready for some months yet but will rival the Saturno when finished.

Yesterday 14 shares of the Caja de Credito were sold at par. For some time past there has been very little done in this stock, which has paid the shareholders so splendidly; the company has been ably managed by Mr Montravle.

A patent has been applied for to the Government for the manufacture of yellow grease; yesterday we saw the samples and we hail with pleasure this new industry.

Saladeristas should take note that the news from Cuba about jerked beef is not favorable. Stocks heavy and large arrivals expected; the price in Havanah is 14 rl.

The sale of 10,000 bags of flour from the Montevidean mills is reported at 95 cts. The mails from Rio bring the following as the last quotations there for flour.

A new steamer, the Bonpland, has been placed on the Uruguay to run up to Mercedes, in connection with the Saturno and Silex. This will prove a great convenience.

The Onyx has brought down from Juanico's estancia a cargo of paving stones for the Calle Larga, Barracas. These stones have all been contracted for by Raffo, a well known Italian mason of this city. It costs 5 pats. per 100 the cutting of them, and 4 pats. per ton frieght; and about 80 go to a ton. Thus at 10 pats. a ton in this port there is a small profit. Raffo has at present ready for shipment 6000 tons of these cut paving stones, and is making large profits in the business. All the stonecutters are Italians; all the railway navvies at Salto are Italians; all the tramway peons are Italians.

The Onyx is now in Montevideo loading a traction engine, which she takes up to Salto to be used by the railway people to drag up railway iron &c. from mole to railway.

The tramway at Concordia is running, but not covering expenses. A small steam ferry between Salto and Concordia is about to be put on, which will do away with the present old system of boats and carts, to throw more trade to the tramway.

The Concordia Railway, or, as it is called, the Argentine Eastern, is pushing ahead famously. The rails are laid now for over forty miles to Federacion, where a splendid station has been erected. All the workmen on this line are Italians, and they are all paid by the piece.

The shareholders of the Platino Braziliero Telegraph Co. in this market have all signed a protest against the meeting called at Rio, upon the grounds that the object of the meeting should be stated, and more time allowed to the shareholders.

The report of the Probidad Insurance Co. was sent round to-day. The total receipts of the company both for fire and marine polices amount to 130,395 pats, and the losses and disbursements 75,503 pats, leaving for dividend 54,891. The company started with 50,000 pats. paid up capital, and had [illegible] heavy losses to meet, but all have been [illegible] and discharged in the most satisfactory matter; the dividend now paid is 25 per cent, and besides placing 8,500 for a reserve fund. This looks well. The following gentlemen were elected to form the Administrative Board—Messrs. George T. Nuttall, John Lanuz, Joseph Pacheco, J.M. Bombal.

The British barque T.W. from Heroe N.S. with lumber, is stranded at Colonia. The Captain mistook the Colonia for the Chico light, and ran his ship right on shore.

The people of the Capilla del Señor have again petitioned the Government about the station of the Rosario Railway. It is to be supposed that the railway company will only place the station where it will best suit the convenience of the town, and the petition in question at present seems premature.

Advices from Brazil received to-day speak of very severe losses caused by the flooding of the River Tubaras, destroying all the maize crops of the district and sweeping off all the cattle thereabouts.

We are indebted to our excellent Montevidean colleague the *Telegrafo* for the following very splendid tables of the trade of Great Britain and Ireland; the figures speak facts well worth knowing—

The meeting of Directors of the Bienhechora del Plata was ho'd yesterday and the accounts for the year gone over. The business of this company shows a splendid development; the draft report has been drawn up by Mr. Moreno, ratified by the board, and now goes to the printers: soon it will be distributed amongst the subscribers.

We cut from the *Telegrafo Maritimo* the following table of the imports of River Plate salted hides into England from 1866 to 1872: the table is useful:—

ON 'CHANGE AT MONTEVIDEO.

Feb. 11th, 1872.

A very large business was done to-day in Home Debt, which closed with an upward tendency at 67½ per cent. for the end of this month, and 68½ for the end of March.

The slate showed the following operations:—

$390,000 at 67½	for the end of February.
220,000 at 67½	do.
100,000 at 68	March.
170,000 at 68½	do.
10,000 at 68½	April.

There were also buyers at 69 for the end of June, but only sellers of a small amount at 70. Well informed parties expect to see this stock rise considerably, as there are parties in the market still for a good half million of dollars, and now that Dr. Ellauri has been admitted into the Senate the political difficulties which were feared have apparently disappeared, we think that we shall see more than 70 per cent paid for these securities during March.

Emprestito Extraordinario was done at 1 per cent. premium, at which price it is steady.

Pacificacion has for some time past been without any sellers. Playa Shares were actively enquired for to-day, but none were to be had at the prices offered, viz, $155 each for end of June. These shares are with justice becoming a favourite investment now.

Montevideano, many buyers at 18½ cash, but sellers refused to accept less than $21.

OTARD, DUPUY AND THE CUSTOM HOUSE.

People wonder at the enormous increase of the Custom-House receipts—120,000 pats. per day against 20, 00 pats. last year,
'Tis the **Dupuy Brandy** that has done this
The despatch is enormous. More peons and more carts are required for the Custom-House.

Post-office Department.

The Belgian General Post-office has advised this Department that the Postage on Letters received in that country, per Antwerp Steamers, leaving here on the 22d of every month, has been reduced, single letters being charged seventy centimes (fourteen cents more or less). Thus, the single letter rate on this Republic being fivecents., the total postage will only amount to nineteen cents, 4¼ mic.

SAVINGS BANK

BANK MAUA AND CO.

101--Calle Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current is now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maua & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need arrives, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Maua & Co. of this city, following a noble example of their firm in Montevideo, ill offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Maua & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maua & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

DEFENSA, 65,67, and 69.

Guaranteed

Infallible for the Cure of Scab in Sheep.

After long and innumbrable trials, we have succeeded in preparing the above Sheep-dip, by the use of which we guarantee the thorough eradication of Scab in Sheep.

Besides cheapness and easy application, it has the great advantage over all other similar preparations of being

COMPLETELY SOLUBLE IN WATER,

a circumstance which admits of our liquid penetrating to the very surface of the skin, without spotting the wool or making it adhere.

ENTERTAINMENT FOR MAN AND BEAST.

"The weary traveller, kindly bade to stay,
Stretches on the bed and sleeps the night away,
Talks o'er his flocks, or little 'negocios' made,
Pays his 'whack,' nor regrets that he has staid,"
